- Lighting design
- Comedy beat planning

**Logline**

Detective Jaz, a 'big-city' tactical expert, is assigned to undercover beach patrol. Refusing to adapt, she treats every tourist activity —from sandcastles to snacks— with the intensity of a high-stakes bomb threat.

# CASE STUDY: DETECTIVE JAZ

## STEP BY STEP AI FILM MAKING

### *Tone*

- **Genre:** Deadpan Action-Comedy.
- **Visual Style:** Gritty 35mm "Michael Bay" aesthetic set in a "Barbie" beach environment.
- **The Weapon Hook:** Jaz carries a massive, oversized **Tactical Axe** as if it were a standard-issue notepad.

### Three-Act Shot List:

**01:** Jaz uses a **giant tactical axe** to delicately slice a tiny, bright-coloured tropical papaya fruit on a beach table.

**02:** Jaz pursues a suspect on a jet ski. She has the **axe strapped to her back**, its blade catching the sunlight, while she drinks.

**03:** Jaz stands in a "Hero Pose" on the shore, axe buried in the sand. A massive wave crashes over her; she stays motionless, taking a bite of a donut.
